

Hungarian Trade Union of Mine-, Energy- and Industry Workers

---

President

**To the Leadership of the Italian trade unions**

**FIM, FIOM and UILM**

Budapest, 19 April 2016

Dear Colleagues,

The Hungarian Trade Union of Mine-, Energy- and Industry Workers BDSZ are sympathetic to the Italian metalworker sector in their negotiation for the renewal of the national collective agreement in this sector.

We support their mobilisation and the strike and we hope they will be able to convince companies to really invest on metalworkers and Federmeccanica and Assital to change position and to reopen the negotiation on new basis to achieve a positive conclusion of the bargaining.

In solidarity

Ferenc Rabi  
President BDSZ
