

SOLIDARITY MESSAGE FROM F.I.-USO

Dear colleagues,

As secretary general of the Federation of Industry of USO (FI-USO) I send a message of solidarity and support for the three Italian unions (FIM, FIOM and UILM) that by this strike you seek to modify the negotiating proposals to improve conditions metalworker sector.

I totally agree with your demands, which ultimately seek decent working conditions for all workers, so I hope and wish that your mobilization help reopen the negotiations and provide the basis for a positive agreement for workers.

In that sense I wish you luck and determination to achieve better working conditions. The F.I.-USO supports your position and sends greetings to all workers which represent.

I wish you success in your work.

Sincerely,
