Dear Colleagues,

Re: OS KOVO Solidarity Letter

The Czech Metalworkers' Federation representing more than 100 000 members fully supports the steps of Italian Trade Unions leading to conclusion of new national collective agreement in the whole Metalworking sector.

We also fully support the commitments of the trade unions to try to protect the workers interests linked to the new investments conditions, new industrial policy oriented on employment, salaries and rights and also among others to on new system of industrial relations between workers and companies.

So, we fully support the strike of metalworkers for the collective agreement, guaranteeing future rights.

In solidarity,

Jaroslav Souček
OS KOVO President
