

SUPPORT AND SOLIDARITY FOR THE MOBILIZATION ON 20TH OF APRIL

Dear colleagues,

We would like to express our support and solidarity to you for the mobilization you are going to have tomorrow for your national collective agreement in the sector of metalworkers.

In Greece, over the last six years, we have come face to face with the same situation in which the working conditions have been violated without mercy, the workers have lost the rights that they had conquered with struggles, unemployment has risen dramatically and the collective agreements have lost their power.

And since all these anti-working measures have been put into effect, we came to know unfortunately that sooner or later they would be put into practice in other European Countries too, with the aim of implementing this austerity policy with the so-called Domino effect everywhere, things that which have already been said in the conference held in January 2016 in Athens.

We would like to point out that UNITY among the workers and among their trade unions is the greatest weapon towards dealing with the situation and being able collectively to demand their rights.

We wish you every success in your unitary national strike which will take place tomorrow in Italy. We are standing by your side in this struggle of yours.

With Fraternal Regards

The President
Theodoros Dimitriadis

The General Secretary
Markos Kontizas
